It is a great concern to every parent in our country to find out perfect education for their sons and daughters after passing Higher Secondary Certificate Examination. The blaze of excellent result soon becomes gloomed when they face tremendous difficulties for admitting their children in a desired subject of an appropriate institution. Students are also confused about selecting appropriate subject for their undergraduate course.

The issue of career building, job security, liking, disliking make everybody so perplexed that almost all science students have to select an universal subject at HSC level that suits almost every possible educational routes that can pave the entry ways to Medical, Engineering, IT, Agriculture, Business, General Universities and many more. And there remains the real dilemma.

This booklet has attempted to rescue out everybody concerned from that perplexity. The guideline may help them to realize whether the noble profession "Medicine" fits the candidate best or not. This prospectus has also furnished information in a limited sphere about 'Popular Medical College'- the most prestigious project of 'Popular Group' to help the concerned to decide why to select this institution as their natural choice.

Hope this small initiative will help the concerned who are looking for Medicine as profession in real sense.

Finally we want to assure that the governing body of this institute will not govern rather will associate as a family member to contribute the best.

Thanking all.

Dr. Md. Mostafizur Rahman
Chairman, Governing Body
Popular Medical College.
Popular Medical College, the iconic concern of the "Popular Group" was established in 2010 with a vision to develop a centre of excellence for medical education in the country. To achieve this vision we started our mission by recruiting the adequate number of highly qualified and experienced teaching staff to make an amazing team of teachers to combat the challenge of building up an institution of repute. Likewise the recruited support service personnel are kind, sympathetic, helpful, cheerful and caring to the students.

The college is presently housed in its campus at Dhanmondi with hostel facilities nearby. The college has developed suitable facilities for curricular, co-curricular and extra curricular activities with the untiring missionary effort of the faculties. In near future, the college will move to a larger campus, within the city, not far away from the present one and will be able to provide further expansion of the facilities.

It is truly exciting and humbling to be a part of such a dynamic institution that prides itself as a place where students truly are at the heart of all we do.

We shall be delighted to have you as a member of our enrollment which consists of promising young stars who exhibit high personal values, uphold moral values and are passionate and strongly committed to become "doctors with a difference". I believe it is possible when love for this noble profession is created by an insight force of oneself and not driven by any other force of compulsion.

We are committed to choose the best from the applicants, guide and nurture them with the whole hearted support of the parents/guardians over the next five years to prepare them to be a "global doctor and global citizen" with human values and capable "to take the charge of the future". Serving as medical teacher for decades my greatest satisfaction lies in nurturing the next generation of medical professionals / doctors who make themselves more effective at saving lives than us. It is only possible when one does not limit his challenge rather he challenges his limits.

May Allah bless us all.

Prof. T. I. M. Abdullah-Al-Faruq
Principal & Professor of Surgery
Popular Medical College
The dream of becoming a doctor of repute is cherished by many. However the constraints are often unsurmountable inspite of having achieved excellent examination results. The reasons are many and the disappointments understandable.

From the very first day of its inception Popular Medical College is committed to address the issues within its limits. A sound academic foundation in undergraduate medical education is of utmost importance in the ultimate buildup to obtain postgraduate degrees. We at Popular Medical College are committed to provide a secured academic environment to produce quality medical graduates with a solid academic foundation.

It is important that students who get themselves admitted into Popular Medical College abide by its rules and regulations and diligently follow their academic pursuits by being sincere regular attentive and devoted to the academic program where they have enrolled.

We wish to assure the guardians that our determination and sincere efforts combined with their support shall allow us produce a future generation of doctors that we can all be proud of.

Prof. Md. Abul Kashem Khandaker
Vice Principal & Professor of Medicine
Popular Medical College.

Merit position & honours mark
- Merit positions are declared only in the cases of regular students.
- A student must get subject wise 85% of the total marks to avail honours mark.

Internship Training
Students who successfully pass the Final Professional MBBS Examination are required to undergo one year internship training in a BM&DC recognized hospital to be eligible for registration by BM&DC. Popular Medical College & Hospital is recognized by BM&DC for such training. Internship is offered to the graduates of Popular Medical College.
Procedure for Admission in PMC

**Admission procedure for local students**
Admission requirement is common to all Medical Colleges of Bangladesh which is formulated by the Ministry of Health & Family Welfare, Universities and Bangladesh Medical & Dental Council. The eligibility of the candidate for the year is decided by this combined body. Students intending to be admitted in medical college must have pass HSC or equivalent examination with the subjects of Physics, Chemistry and Biology. They are required to sit for a central admission test conducted by MOH&FW through DGHS. Once a candidate in declared eligible he / she is required to apply in prescribed form of Popular Medical College for admission along with the document wanted in the advertisement of the college.

The admission is on the basis of merit amongst the applicants.

**Admission procedure for foreign students**
Candidates fulfilling the eligibility for admission in non-government medical colleges of Bangladesh are required to apply in prescribed form along with the following documents (anyone of the procedures may be followed).

a) SSC / equivalent examination mark sheets

b) HSC / Equivalent examination marksheets

c) Equivalence certificates of the above mark sheets from the Director Medical Education, DGHS of Bangladesh

d) No objection certificate from the Ministry of Education of the respective country of the candidate

e) Undergraduate Eligibility Certificate / No objection Certificate from the Medical and Dental Council of the respective country stating their permission to study in Popular Medical College.

**Procedure I :**
Foreign students may apply directly to Popular Medical College in the prescribed form of Popular Medical College along with the above mentioned documents. They shall be notified of their admission offer within three weeks of receiving their application. Online application is available.
All candidates must complete their admission formalities within the specified date stated in the notification.

Procedure II:
Students may apply through the Embassy of Bangladesh in the prescribed form (downloadable from the website) of Popular Medical College along with the above mentioned documents except equivalence certificates of the above mark sheets from the Director Medical Education, DGHS of Bangladesh (this shall be organized by the DGHS in Dhaka). Once the application forms along with the equivalence certificate and other required documents are received by Popular Medical College authority procedures for acceptance shall begin.

Candidates shall be notified of their admission offer within three weeks of receiving their application from the DGHS.

All candidates must complete their admission formalities within the specified date stated in the notification.

Procedure III:
Candidates may also apply through any authorized agency. In such case the submission of required papers and organizing the admissions shall be the agency's responsibility.

Online submission of admission application
Applications for admission in Popular Medical College may also be submitted online with all requisite scanned documents and fees at its website: www.pmch-bd.org
The requisite application fee for local students may also be paid online to bKash account no. 01786655128
Popular Group is the only State of the Art total health care provider of the country in private sector. Popular Medical College is a prestigious concern of Popular Group. The college was established in 2010. Though fairly new among the medical colleges of the country Popular Medical College has already attained an enviable status for its outstanding care in preparing the students for their MBBS course.

Popular Medical College is placed in a prime location of Dhaka City. Most of the civic facilities are situated within 5 km. radius of the college. The college campus is easily connected by all types of transport and is within a very short distance from good dining and shopping centres. The college has well furnished residential hostel for the students situated near the college with dining hall and provisions for dining in groups.

The academic building has adequate number of well equipped air conditioned lecture halls for large group teaching, conduction of examinations and social events. Every department has well equipped laboratory and or museum and adequate number of tutorial class rooms. All the class rooms are air conditioned and well furnished. The college has an air-conditioned library which is rich in the quality of books and supported by qualified & efficient staff to help the students. Designated teachers remain present in the library by rotation after college hours to help the students as and when required. The IT centre is placed in the library to enable easy access to all.
The Popular Medical College endeavors to ensure a state of the art academic infrastructure providing ample learning facilities and boasts of a faculty who are highly reputed both nationally and internationally. The college boasts of a conglomeration of the finest academic staff. The departments are run by full time highly qualified, well experienced, dedicated and extremely efficient and skilled teachers. The college encourages friendly tutorship exhibiting professionalism in medical education and maintains the highest respect to discipline and rules. The program emphasises on small group teaching, integrated teaching and problem based learning in addition to the traditional lecture classes. Community based learning is an integral part of the academic program.

The Popular Medical College thinks beyond the words that the curriculum dictates. The college not only undertakes to impart knowledge to its students but also stresses on character development and building moral values like human responsibilities, respect, care and appreciation to others to produce socially responsible persons of the community. The college encourages personal values to enable every student to develop confidence and self awareness and the grit of determination to succeed.

Medical professionals of today are facing many challenges. In an effort to inspire the young stars and also to try to develop professionalism amongst them the college organizes a program in the name of "Meet the Legend". Here the students have an opportunity to meet and interact with senior highly distinguished personalities of the medical profession and hear their noble words of wisdom.

The college has a spacious students common room for brief relaxation through indoor games within the compact and structured educational program. The college operates a modern cafeteria where the students can enjoy light and regular meals in between & after the classes with a range of food items, which is essentially balanced, nutritious, healthy and subsidized.
Apart from being able to provide the highest standard of care for the sick, the doctors of tomorrow requires to be a good decision maker with fine communication & management skills and capable of providing the required leadership when the situation demands. To ensure this a persistent and systematic process of quality assurance can not be over emphasized.

Popular Medical College believes in student centric, teacher guided, parent supported, community oriented and values driven education program to produce competence based medical graduates capable of 'taking charge of the future'. Popular medical College ensures Quality Assurance of the medical curriculum through its Institutional Quality Assurance Body which is overviewed by the National Quality Assurance Body (NQAB) of Bangladesh.

Quality Assurance (QA) is the totality of systems, resources and information devoted to maintain and improve the quality and standard of teaching, scholarship, research and the students learning experience. The Quality Assurance (QA) scheme in medical education review the way a college implements its course. Popular Medical College is having a strong Quality Assurance Body to monitor its education system, way of implementation of the course and the standard of teaching imparted to the students.

Popular Medical College is accountable to the people of Bangladesh to produce medical graduates who are competent to deliver the health care which the community requires. The college operates the QA process within a management system consistent with the attitude of a self evaluating institution. This is externally reviewed by the National Quality Assurance Body (NQAB) based on quality parameters pertaining to teaching, training and research.

*Exchanging QA program with peer medical college*
Faculty Development Programs

The greatest asset of an educational institute is its teaching staff and Popular Medical College has a large number of highly qualified experienced & eminent teachers who are best of the bests. The college provides for its teaching staff the opportunity to further develop their abilities in relation to teaching and learning through the Faculty Development and Review Scheme. It makes available an on-going programme of faculty development on teaching and learning, assessment and evaluation, research methodology, research and medical writing through the Medical Education Unit (MEU) of the college. It facilitates the departments in preparation of self assessment reports of academic performance programmes as per guidelines given by National Quality Assurance Body.
Inspection by Competent Authorities

Medical education in Bangladesh is controlled by Ministry of Health & Family Welfare, University & Bangladesh Medical & Dental Council. Ministry of Health & Family Welfare provides approval to the college as per principles laid down earlier subject to affiliation with the University. University affiliates the college according to University rules. It looks after the teaching learning and certification.

Bangladesh Medical & Dental Council is the Regulatory Body to maintain Medical & Dental Educational standard in the country. It maintain register of qualified Medical & Dental graduates qualifying from recognized institution & take disciplinary action which may be required for professional misconduct.

Bangladesh College of Physicians and Surgeons is a statutory body to confer fellowship & membership to postgraduate students who passed the respective examination. It affiliates training centres to ensure quality training to postgraduate trainees.
Popular Medical College cares for its students like its own children and strives to bring out the best from each of them.

To ensure adequate student care a group of 5 students are placed under the direct guidance of a young teacher (lecturer). They are called guide teachers. Three guide teachers are supervised by a mid level teacher (Asstt. Prof. / Assoc. Prof.) who obtained weekly reports of the students performance (academic, social and disciplinary) from his/her group of guide teachers. The supervising teacher are entrusted with student care and are responsible for solving their problems too (if required in consultation with the senior teachers, college administration and parents/guardians). The supervising teachers are required to prepare a complete performance report of each student (under their jurisdiction) and send it to the chairman ACC fortnightly. This report is based on the report of the guide teachers and on their own observations.

The chairman ACC evaluates the performance reports. Subsequently he presents the performance report with his evaluation comments in the meeting of the heads of the departments of each phase discusses and re-evaluates the performance reports to formulate an action plan for improvement/rectification of student performance. The recommendation is sent to the Principal for implementation and necessary action.

STUDENT ASSISTANCE

The college has a students assistance centre designed to help students in relation to their study, accommodation and skill development. The centre provides special assistance to those who feel they are unable to keep pace with the academic course. The centre also aims at developing individual student confidence to excel in every sphere and emerge as a productive citizen ready to deliver their best academically, skillfully, spiritually and emotionally. No doubt this is a small step but a step nevertheless towards a brighter future for each and everyone of our student.
To encourage and recognize the academic achievements of its students and also to develop a harmonious & competitive academic environment, Popular Medical College has introduced different academic awards for its students.

The college acknowledges and stresses the need of regularity and punctuality in addition to discipline. The introduction of the "Attendance Award" for all students attaining 100% class attendance is an example of this.

"Principal's Honor Roll" - is awarded to a student who achieves an aggregate of 75% or more marks over the whole calendar year including professional examinations.

"PMC Achievement Award" - is awarded to a student who obtains "Honors marks" in a professional examination held during a calendar year.

"PMC Gold Student Award" - is awarded to a student who attains a position among the first 10 places in a professional examination during a calendar year.

A student can be the recipient of any one or more award within that calendar year.

Students are receiving academic awards
Popular Medical College is continuing its academic activities in a multi-storied academic building at its own premises at Dhanmondi, a prime location in Dhaka City. The building provides ample space for every basic medical science departments. The authorities envisages further expansion and moving to a large campus within Dhaka City in the near future.

The college is provided with very spacious, air-conditioned, sound proof lecture galleries to comfortably accommodate 150 students in each with all latest audio-visual aids and address system for teaching. Another larger multipurpose hall specially designed to conduct examinations have been incorporated.

The learning experience

Popular Medical College believes in positive attitude, self confidence, knowledge, skill, professionalism and human values. The objective is to produce medical graduates with a difference capable of taking charge of the future.

Large group teaching
Along with the century old traditional lecture system to introduce a subject and discuss the broad concepts in that specific field of study, interactive lectures, small group discussions and integrated teaching has been introduced from the beginning.

Integrated Teaching

Integrated teaching incorporating Pre-clinical, Para-clinical and Clinical disciplines have been organised, so that students can get ideas about basis of human body & its functions, the disease processes & its manifestations & management from the beginning & thereby expose them to the patient at an earlier date.

Learning in Tutorials

Tutorial is the most distinctive way of learning in our institution. We have introduced true tutorship to augment learning apart from lecture & practical classes. This model has proved to find out real weakness in student & ensure appropriate remedy. Teacher student ratio has been adjusted in such a way that it will form the focus of independent learning & will give the student ample space to discuss ideas & be challenged to think clearly about what a student have been studying.
We are committed to provide training environment at the community to train the students and interns to enable them to participate in the preventive and curative care of the patients and their families in primary health care at field setting successfully and to contribute to improve the health of low income group of people under the community oriented medical education programme.

We are providing special attention for students who face difficulties in learning or show deficiencies in their academic performance through extra course after office and during holidays.

We are planning to exercise the ideas of Problem Based Learning (PBL) to enrich the capability of self judgment & decision making. Finally we pride ourselves on being committed to prevailing excellent student teacher relationships. We want our students to become very sociable & committed to our mass community through voluntary works.

Learning in Groups
Outside the designated class group discussion in small groups is encouraged. Participating in these group discussions students have the opportunity to interact and learn from each other. Guide teacher used to help them as and when required.

Self Learning
In addition to practical classes, tutorials, & other attachments a student will be expected to direct his own learning, identifying his/her weakness & actively perusing areas of interest. To support this, institution has provided network facilities, laboratories, virtual library with huge titles & all possible access.

Community based learning
We are committed to provide training environment at the community to train the students and interns to enable them to participate in the preventive and curative care of the patients and their families in primary health care at field setting successfully and to contribute to improve the health of low income group of people under the community oriented medical education programme.

Remedial learning
We are providing special attention for students who face difficulties in learning or show deficiencies in their academic performance through extra course after office and during holidays.

Problem based learning
We are planning to exercise the ideas of Problem Based Learning (PBL) to enrich the capability of self judgment & decision making. Finally we pride ourselves on being committed to prevailing excellent student teacher relationships. We want our students to become very sociable & committed to our mass community through voluntary works.
Clinical Teaching Facilities

The Popular Medical College Hospital with its emergency, outpatient & 500 beds for inpatient including ICU and dialysis facilities is already in function for clinical teaching for the students. Along with the bed side teaching designated class rooms have also been provided for tutorial classes in the hospital.
The Medical College library is spacious enough to accommodate ample reading space for present and future students and holds essential latest edition text books including reference titles and others. It remains open even for evening studies under the guidance of a teacher.

Medical professionals of today are facing many challenges. In order to groom our students to face such challenges with courage we have introduced an exclusive programme for our students 'to meet the legend'. In these programmes highly distinguished personalities of the profession are invited to address and the students get free access to talk with them.

The College also provides ample facilities for the students to refresh their knowledge through modern technology along with internet facilities. The college has its own website with a built in link with essential domains and sites. The page provides all required information about the college, its objective and specialty with regular updates. Faculty details, admission policies and essential notices will also be available. Interactive pages will be dedicated for students, teachers and parents for suggesting improvements in required fields.

Prof. Emeritus APR Aliwihare, former Vice Chancellor, University of Peradeniya, Srilanka addressing the students and teachers of Popular Medical College.
The college is planning to establish a students resource centre which will facilitate the students and provide them the opportunity to develop management, communication, team building, social and leadership skills. In this global competitive age it is imperative to provide the students with opportunities to develop the above mentioned skills.

**Student resource centre**

The college is planning to establish students resource centre which will facilitate the students and provide them the opportunity to develop management, communication, team building, social and leadership skills. In this global competitive age it is imperative to provide the students with opportunities to develop the above mentioned skills.

**Liaison with the parents / guardians**

College office serves as a bridge between the college administration & the parents/guardians. Parents / guardians meeting with the teachers and college administration is arranged regularly. Student progress reports are communicated to the parents / guardians at the end of the term. Matters relating to discipline & violation of college rules & regulations along with the decision of academic council are also communicated to the parents/guardians as and when necessary.
Medical Centre

Physical fitness is an essential requisite for a professional education like medical science. In order to ensure optimum health this institution has a medical centre for regular health checkup of the students. It provides all medical students and staffs with a state of the art medical centre dedicated for the college. This medical centre provide regular medical checkup, emergency and on demand medical facilities upto specialist service and hospital admissions if required.

The services of the medical centre is open from 8.00 am to 2.00 pm and is available to all students free of charge. Emergency medical services are provided by the Popular Medical College Hospital round the clock.

College Conference Room and Teacher's Lounge

The college provided a well equipped conference room with all modern facilities to conduct meetings.

The college also provided two specious teacher's lounge for relaxation and interaction amongst the teachers.
The College has provided a spacious common room at the 4th floor of the academic building for indoor games for brief relaxation within the compact & structured teaching learning schedule.

The College has a well furnished and secured hostel for accommodation of students under the supervision of hostel superintendent. It is near to the college campus.

The college has a spacious cafeteria at the 4th floor of the academic building with a range of food items, which are essentially balanced, nutritious, healthy and subsidized. Every effort has been made to ensure availability of the services up to the late hours.
The first batch of interns of Popular Medical College began its training in Popular Medical College Hospital from July 2016. After five years of hard work and devoted studies a total of 25 students out of 26 were declared to have passed the Final Professional MBBS Jan 2016. The inductions of these young doctors on 7th July 2016 was a milestone for Popular Medical College.
Co-curricular activities are an integral part of our educational programme to enable build character and provide holistic education. We must emphasize that the intent of co-curricular activities is not to coin medals but to learn the values of excellence, team work and discipline; to be gracious in victory and resilient in defeat.

Popular Medical College can boast of a faculty which certainly is well reputed and respected for its devotion and professionalism. It is also important to point out that many of the faculty members are actively involved with postgraduate teaching, learning and examination programs in addition to their undergraduate responsibilities.

**PROF. T.I.M. ABDULLAH-AL-FARUQ**  
*Professor & Head, Department of Surgery and Principal*  
Prof. T.I.M. Abdullah-Al-Faruq is the founder principal of Popular Medical College. He is reputed for his organizational qualities and has taken the responsibility helping establish PMC from its inception. He obtained his MBBS in 1975 and FCPS in 1989. He is serving in the teaching posts in various capacities in different medical colleges for 36 years. Prior to joining in this institute Prof. Faruq retired from Dhaka Medical College as Professor of Surgery. In addition to undergraduate teaching, learning and assessment programs, he is actively involved with postgraduate teaching, learning and assessment programs of BCPS and Universities. He is a Senior Councillor of Bangladesh College of Physicians & Surgeons and serving the College in various capacities for long time. He has 28 publications in different National and International Medical Journals.

**PROF. MD. ABUL KASHEM KHANDAKER**  
*Professor & Head, Department of Medicine and Vice-Principal*  
He obtained his MBBS in 1976, FCPS in 1984 and Ph.D. in 1993. He is serving in the teaching posts in various capacities in different medical colleges for 32 years. Prior to joining in this institute Prof. Khandaker retired from Shaheed Suhrawardy Medical College, Dhaka as Professor of Medicine. In addition to undergraduate teaching, learning and assessment programs, he is actively involved with postgraduate teaching, learning and assessment programs of BCPS and Universities. He is a Councillor of Bangladesh College of Physicians & Surgeons and serving the college in different capacities. He has 40 publications in different National and International Medical Journals.

**PROF. MD. ABU TAHER**  
*Professor & Head, Department of Anatomy*  
He obtained his MBBS in 1983 & M.Phil in 1996. He is serving in the teaching posts in various capacities in different medical colleges for about 26 years. He also served as Principal, Sher-E-Bangla Medical College, Barishal, and retired from there. In addition to undergraduate teaching, learning and assessment programs, he is actively involved with postgraduate teaching, learning & assessment programs of BCPS and Universities. He has 16 publications in different National Medical Journals.

**PROF. KHANDAKER ABU RAYHAN**  
*Professor, Department of Anatomy*  
He obtained his MBBS in 2001 & M.Phil in 2006. He is serving in the teaching posts in various capacities in different medical colleges for 10 years. In addition to undergraduate teaching, learning and assessment programs, he is actively involved with postgraduate teaching, learning and assessment programs of University and BCPS. He has 6 publications in different National Medical Journals.
DR. FARZANA YESMIN  
*Associate Professor, Department of Physiology*  
She obtained her MBBS in 2002 & M.Phil in 2010. She is serving in the teaching posts in various capacities in different medical colleges for more than 8 years. In addition to undergraduate teaching, learning and assessment program she is actively involved with the teaching, learning and assessment programs of university & BCPS. She has 6 publications in different National Medical Journals.

DR. RAZIA SULTANA  
*Assistant Professor, Department of Physiology*  
She obtained her MBBS in 2004 and M.Phil in 2014. She has been serving in the teaching post in various capacities in different medical colleges for about 6 years.

DR. ISMAT ARA BEGUM  
*Associate Professor, Department of Biochemistry*  
She obtained her MBBS in 2001 & M.Phil in 2008. She is serving in the teaching posts in various capacities in different medical colleges for about 11 years. She has 12 publications in different National Medical Journals.

PROF. SHAMEEMA BEGUM  
*Professor & Head, Department of Physiology*  
She obtained her MBBS in 1984 & M.Phil in 1994. She is serving in the teaching posts in various capacities in different medical colleges for about 22 years. Prior to joining in this institute Prof. Shameema went on voluntary retirement from Comilla Medical College. In addition to undergraduate teaching, learning and assessment programs, she is actively involved with postgraduate teaching, learning & assessment programs of BCPS and Universities. She has 13 publications in different National Medical Journals.

DR. SHAHNAZ PARVIN  
*Associate Professor, Department of Anatomy*  
She obtained her MBBS in 2001 & M.Phil in 2010. She is serving in the teaching posts in various capacities in different medical colleges for more than 8 years. In addition to undergraduate teaching, learning and assessment program she is actively involved with the teaching, learning and assessment programs of university & BCPS. She has 6 publications in different National Medical Journals.

PROF. SELINA AHMED  
*Professor & Head, Department of Biochemistry*  
She obtained her MBBS in 1982 & M.Phil in 1991. She is serving in the teaching posts in various capacities in different medical colleges for about 25 years. Prior to joining in this institute Prof. Selina was serving as Prof. & Head of Biochemistry, Dhaka Medical College. In addition to undergraduate teaching, learning and assessment programs, she is actively involved with postgraduate teaching, learning and assessment programs of BCPS and Universities. She has 35 publications in different National Medical Journals.

DR. ISMAT ARA BEGUM  
*Associate Professor, Department of Biochemistry*  
She obtained her MBBS in 2001 & M.Phil in 2008. She is serving in the teaching posts in various capacities in different medical colleges for about 11 years. She has 12 publications in different National Medical Journals.
PROF. KH. A. KARIM
Professor & Head, Department of Forensic Medicine
He obtained his MBBS in 1994, D.F.M. in 2002 & M.C.P.S in 2004. He is serving in the teaching posts in various capacities in different medical colleges for 22 years. In addition to undergraduate teaching, learning and assessment programs, he is actively involved with postgraduate teaching, learning and assessment programs of Universities. He has 17 publications in different National and International Medical Journals.

DR. PARVIN DILARA JAMAN
Associate Professor (cc) , Department of Forensic Medicine
She obtained her MBBS in 2004, D.F.M. in 2011 & M.C.P.S in 2012. She is serving in the teaching posts in various capacities in different medical colleges for about 11 years. She has 5 publications in National Medical Journals.

PROF. MD. ABDUL JABBAR
Professor & Head, Department of Community Medicine
He obtained his MBBS in 1979, D.C.M. in 1987 and DHIPed in 1998. He is serving in the teaching posts in various capacities in different medical colleges and postgraduate institute for 35 years. Prior to joining in this institute Prof. Jabbar was serving as Prof. & Head of Community Medicine, Dhaka Medical College. In addition to undergraduate teaching, learning and assessment programs, he is actively involved with postgraduate teaching, learning and assessment programs of BCPS & Universities. He has 42 publications in different National and International Medical Journals.

DR. AFZALUR RAHMAN MAHMOOD
Assistant Professor, Department of Community Medicine
He obtained his MBBS in 1980, D.C.M. 1992 and M.Phil in 1998. He is serving in the teaching posts in various capacities in different medical colleges for 18 years. He has 20 publications in different National Medical Journals.

PROF. MD. ABDUL JABBAR
Professor & Head, Department of Forensic Medicine
He obtained his MBBS in 1979, D.C.M. in 1987 and DHIPed in 1998. He is serving in the teaching posts in various capacities in different medical colleges and postgraduate institute for 35 years. Prior to joining in this institute Prof. Jabbar was serving as Prof. & Head of Community Medicine, Dhaka Medical College. In addition to undergraduate teaching, learning and assessment programs, he is actively involved with postgraduate teaching, learning and assessment programs of BCPS & Universities. He has 42 publications in different National and International Medical Journals.

DR. AFZALUR RAHMAN MAHMOOD
Assistant Professor, Department of Community Medicine
He obtained his MBBS in 1980, D.C.M. 1992 and M.Phil in 1998. He is serving in the teaching posts in various capacities in different medical colleges for 18 years. He has 20 publications in different National Medical Journals.

PROF. NILUFAR BEGUM
Professor & Head, Department of Pharmacology
She obtained her MBBS in 1982 and M.Phil in 1988 and M.M. Ed in 1995. She is serving in the teaching posts in various capacities in different medical colleges for 27 years. Prior to joining in this institute Prof. Nilufar went on voluntary retirement from Mymensingh Medical College and was serving as Prof. & Head of Pharmacology in a Non-Government Medical College. In addition to undergraduate teaching, learning and assessment programs, she is actively involved with postgraduate teaching, learning and assessment programs of BCPS and Universities. She has 14 publications in different National Medical Journals.
DR. MUHAMMAD MAHBUBUL ALAM  
*Associate Professor, Department of Pharmacology*  
He obtained his MBBS in 2005 and M.Phil in 2010. He is serving in the teaching posts in various capacities in different medical colleges for 10 years. He has 12 publications in different National Medical Journals.

DR. MD. MAHBUBUL HOQUE  
*Assistant Professor, Department of Pharmacology*  
He obtained his MBBS in 2000 and M.Phil in 2012. He is serving in the teaching posts in various capacities in different medical colleges for 07 years. He has 03 publications in National Medical Journal.

PROF. SHAHEEN LIPIKA QUAYUM  
*Professor, Department of Pharmacology*  
She obtained her MBBS in 1999 and M.Phil in 2007. She is serving in the teaching posts in various capacities in different medical colleges for 11 years. She has 10 publications in different National Medical Journals.

DR. MUHAMMAD MUSTAFIZUR RAHMAN  
*Assistant Professor, Department of Pathology*  
He obtained his MBBS in 1999 & MD in 2013. He is serving in the teaching post in different medical colleges for 6 years. He has 4 publications in National Medical Journals and 1 in International Medical Journal.

DR. MD. JAMSHED HAIDER SIDDIQUE  
*Professor & Head, Department of Pathology*  
He obtained his MBBS in 1979 and M.Phil 1985. He is serving in the teaching posts in various capacities in different medical colleges and postgraduate institutes for 30 years. Prior to joining in this institute Prof. Siddique was serving as Prof. & Head of Pathology NIDCH. In addition to undergraduate teaching, learning and assessment programs, he is actively involved with postgraduate teaching, learning and assessment programs of BCPS and Universities. He has 15 publications in different National Medical Journals.

DR. FARHANA ISLAM  
*Assistant Professor, Department of Pathology*  
She obtained her MBBS in 2002 and MD in 2013. She was serving in BSMMU for 9 years prior to joining in the institute. She has 2 publications in different National Medical Journals.

PROF. KAZI ZULFIQUER MAMUN  
*Professor & Head, Department of Microbiology*  
He obtained his MBBS in 1978, M.T.M. in 1988 & Ph.D in 1992. He is serving in the teaching posts in various capacities in different medical colleges for 35 years. Prior to joining in this institute Prof. Mamun was serving as Prof. & Head of Microbiology in Dhaka Medical College. In addition to undergraduate teaching, learning and assessment programs, he is actively involved with postgraduate teaching, learning and assessment programs of BCPS and Universities. In addition he is also serving as a chairman of ERC member of RCC of ICDDR’B. He has more than 50 publications in different National and International Medical Journals. He is the co-author of Practical Pathology and Microbiology.
PROF. MUSHTAQUE AHMED
*Assistant Professor, Department of Microbiology*
He obtained his MBBS in 1992, M.Phil in 2005 and FCPS in 2013. He is serving in the teaching parts in various capacities in different medical colleges for 10 years. In addition to undergraduate teaching, learning and assessment programs, he is actively involved with postgraduate teaching, learning and assessment programs of University & BCPS. He has 9 publications in National & International Medical Journals.

DR. HASINA IQBAL
*Assistant Professor, Department of Microbiology*
She obtained her MBBS in 2004, M.Phil. in 2010. She is serving in the teaching posts in various capacities in different medical colleges for 9 years. She has 8 publications in different National Medical Journals.

PROF. QUAZI TARIKUL ISLAM
*Professor, Department of Medicine*
He obtained his MBBS in 1981 and FCPS in 1987. He has been serving in the teaching posts in various capacities in different medical colleges for 30 years. Prior to joining in this institute Prof. Islam was serving as Prof. of Medicine in Dhaka Medical College. In addition to undergraduate teaching, learning and assessment programs, he is actively involved with postgraduate teaching, learning and assessment programs of BCPS and Universities. He is a Councillor of Bangladesh College of Physicians & Surgeons and served as Controller of Examinations of the College. He was a Regional Technical Advisor for Dengue, SEARO, WHO. He has 102 publications in different National and International Medical Journals. He has been serving as editor-in-chief Bangladesh Journal of Medicine. Chairman, Journal of BCPS. He is the immediate Past President of Bangladesh Society of Medicine. He has been serving as the Governor of American College of Physicians Bangladesh Chapter. He has been awarded Fellow without examination from Royal College of Edinburgh, Glasgow and American College of Physicians.

PROF. H.A.M. NAZMUL AHASAN
*Professor, Department of Medicine*
Prof. H.A.M. Nazmul Ahasan obtained MBBS in 1982 and FCPS in 1988. He received prestigious fellowships(FRCP) from Royal College of Physicians Glasgow and Edinburgh in 2001 and 2003 respectively. He Received Fellowship from American College of Physicians in 2005. He has served as a teacher in various capacities in different medical Colleges for 33 years. Prior to joining Popular Medical College he served as Professor and Head of the department of Medicine of Dhaka Medical College for seven years. At present he is Chairman of the Faculty of Medicine of the Bangladesh College of Physicians and Surgeons(BCPS). He is actively involved in undergraduate and postgraduate teaching and assessment programmes under Bangabandhu Sheikh Mujib Medical University and University of Dhaka. He is also renowned as clinical researcher. He is author and coauthor of 197 publications in national and international medical journals. He is also coauthor of National guideline for diagnosis, management and prevention of Influenza, Dengue and H1N1. This is to be mentioned that he is the first ever Bangladeshi physician to receive the honor. He was awarded gold medal for his contribution in medical education research by Bangladesh Academy of Sciences in 2003.

DR. HOMAYRA TAHSEEN HOSSAIN
*Associate Professor, Department of Medicine*
She obtained her MBBS in 2003, FCPS in 2009, MRCP in 2011. She is serving for about 4 years in various capacities in Popular Medical College. She has 4 publications in National Medical Journals.

DR. ANZIRUN NAHAR ASMA
*Associate Professor, Department of Dermatology*
She obtained her MBBS in 1998, DDV in 2006 & FCPS in 2010. She is serving in the teaching posts in various capacities in different medical colleges for 6 years. She has 6 publications in different National Medical Journals.
PROF. A.K.M. MOTIUR RAHMAN  
Professor & Head, Department of Paediatrics  
He obtained his MBBS in 1982 & FCPS in 1998. He is serving in the teaching posts in various capacities in different Medical Colleges and postgraduate institutions for about 34 years. Prior to joining in this institute he served as professor of Psychotherapy in National Institute of Mental Health (NIMH). In addition to undergraduate teaching, learning and assessment programs, he is actively involved with postgraduate teaching, learning and assessment programs of BCPS & Universities. He has 30 publications in different national and international medical journals.

DR. FARZANA RAHMAN CHOWDHURY  
Assistant Professor, Department of Paediatrics  
She obtained her MBBS in 2002, DCH in 2008 and FCPS in 2012. Prior to joining here she was serving as Registrar of Paediatrics in a Non-Government Medical College for 2 years. She has been serving for about 3 years as Assistant Professor in Popular Medical College. She has 4 publications in national medical journals.

PROF. MD. SHAH ALAM  
Professor, Department of Psychiatry  
He obtained MBBS in 1980 and FCPS in 1989. He is serving in the teaching posts in various capacities in different Medical Colleges and postgraduate institutions for about 34 years. Prior to joining in this institute he served as professor of Psychotherapy in National Institute of Mental Health (NIMH). In addition to undergraduate teaching, learning and assessment programs, he is actively involved with postgraduate teaching, learning and assessment programs of BCPS & Universities. He has 30 publications in different national and international medical journals.

DR. HOSSAIN SHAHID FERDOUS  
Assistant Professor, Department of Paediatrics  
He obtained his MBBS in 1982 & DEM in 1993. He is serving in the teaching post in various capacities in different medical colleges for 33 years. Prior to joining in this institute Prof. Hossain Shahid Ferdous was serving as Senior Consultant of Clinical Endocrinology, BIRDEM General Hospital and Ibrahim Medical College. In addition to undergraduate teaching, learning and assessment program, he is actively involved with postgraduate teaching, learning and assessment program of University. He has 39 publications in different National & International Medical College Journals.

PROF. ABDULLAH AL SHAFI MAJUMDER  
Professor, Department of Cardiology  
He obtained his MBBS in 1982, Diploma in Cardiology in 1985 and MD Cardiology in 1991. He is serving in the teaching post in various capacities in different medical colleges for 25 years. Prior to joining in this institute Prof. Abdullah Al Shafi Majumder was serving as Director and Professor of Cardiology in National Institute of Cardiovascular Diseases. In addition to undergraduate teaching, learning and assessment program, he is actively involved with postgraduate teaching, learning and assessment program of University. He has 170 publications in different National & International Medical College Journals.

PROF. A.K.M. MOTIUR RAHMAN  
Professor & Head, Department of Paediatrics  
He obtained his MBBS in 1982 & FCPS in 1998. He is serving in the teaching post in various capacities in different Medical Colleges for more than 21 years. Prior to joining in this institute Prof. Rahman retired from Dhaka Medical College as Professor of Pediatrics. In addition to undergraduate teaching learning and assessment programs, he is actively involved in postgraduate teaching, learning and assessment programs of BCPS and Universities. He has 30 publications in different national & international medical journals.

DR. FARZANA RAHMAN CHOWDHURY  
Assistant Professor, Department of Paediatrics  
She obtained her MBBS in 2002, DCH in 2008 and FCPS in 2012. Prior to joining here she was serving as Registrar of Paediatrics in a Non-Government Medical College for 2 years. She has been serving for about 3 years as Assistant Professor in Popular Medical College. She has 4 publications in national medical journals.
PROF. SHAFQUAT HUSSAIN KHUNDKAR
Professor of Plastic & Re-constructive Surgery
He obtained his MBBS in 1978 and FCPS in 1984. He is serving in the teaching posts in various capacities in different medical colleges for 32 years. Prior to joining in this institute he was serving as Assistant Professor of Transfusion Medicine in Ad-Din Medical College. He has 6 publications in different National & International Medical Journals.

PROF. SK. NURUL ALAM
Professor & Head, Department of Orthopaedic Surgery
He obtained his MBBS in 1976, D-ortho in 1980 and M.S. in 1986. He is serving in the teaching posts in various capacities in different medical colleges & postgraduate institutes for 36 years. In addition to undergraduate teaching, learning and assessment programs, he is actively involved with postgraduate teaching, learning and assessment programs of BCPS and Universities. He also served as Vice-principal, Dhaka Medical College and Dean, Faculty of Postgraduate Medical Science and Research, Dhaka University. Presently he is the Chairman, Faculty of Surgery (including Dentistry), Bangladesh College of Physicians & Surgeons. He has 43 publications in different Medical Journals. Currently he is honorary chairperson of Medical Education of Popular Medical College.

PROF. MAZIBAR RAHMAN
Professor, Department of Surgery
He obtained his MBBS in 1976 and FCPS in 1987. He is serving in the teaching posts in various capacities in different medical colleges and postgraduate Institute for 32 years. Prior to joining in this institute Prof. Rahman was serving as Prof. of Surgery in Dhaka Medical College. In addition to undergraduate teaching, learning and assessment programs, he is actively involved with postgraduate teaching, learning and assessment programs of BCPS and Universities. He has 30 publications in different National and International Medical Journals.

PROF. MD. MARGUB HOSSAIN
Professor, Department of Surgery
He obtained his MBBS in 1976, FCPS in 1983 and MHPEd in 1993. He is serving in the teaching posts in different capacities in various medical colleges & postgraduate institutes for 36 years. In addition to undergraduate teaching, learning and assessment programs, he is actively involved with postgraduate teaching, learning and assessment programs of BCPS and Universities. He also served as Vice-principal, Dhaka Medical College and Dean, Faculty of Postgraduate Medical Science and Research, Dhaka University. Presently he is the Chairman, Faculty of Surgery (including Dentistry), Bangladesh College of Physicians & Surgeons. He has 43 publications in different Medical Journals. Currently he is honorary chairperson of Medical Education of Popular Medical College.

PROF. MAZIBAR RAHMAN
Professor, Department of Surgery
He obtained his MBBS in 1976 and FCPS in 1987. He is serving in the teaching posts in various capacities in different medical colleges and postgraduate Institute for 32 years. Prior to joining in this institute Prof. Rahman was serving as Prof. of Surgery in Dhaka Medical College. In addition to undergraduate teaching, learning and assessment programs, he is actively involved with postgraduate teaching, learning and assessment programs of BCPS and Universities. He has 30 publications in different National and International Medical Journals.

DR. MD. ABDUL QUADER
Assistant Professor, Department of Transfusion Medicine
He obtained his MBBS in 1989, MPH in 1997 and MD in 2010. Prior to joining in this institute he was serving as Assistant Professor of Transfusion Medicine in Ad-Din Medical College. He has 6 publications in different National & International Medical Journals.

PROF. MAZIBAR RAHMAN
Professor, Department of Surgery
He obtained his MBBS in 1976 and FCPS in 1987. He is serving in the teaching posts in various capacities in different medical colleges and postgraduate Institute for 32 years. Prior to joining in this institute Prof. Rahman was serving as Prof. of Surgery in Dhaka Medical College. In addition to undergraduate teaching, learning and assessment programs, he is actively involved with postgraduate teaching, learning and assessment programs of BCPS and Universities. He has 30 publications in different National and International Medical Journals.
PROF. SHAHIDUL ALAM KHAN
Professor, Department of Urology
He obtained his MBBS in 1979, FCPS in 1987 and MS in 1999. He is serving in the teaching posts in various capacities in different medical colleges and postgraduate Institute for 31 years. Prior to joining in this institute Prof. Khan was serving as Prof. of Urology (in charge of renal transplantation) in BSMMU. He is the recipient of many National & International awards for Academic & Humanitarian services. He has 20 publications in different National & International Medical Journal. Prof. Khan is the present President of Bangladesh Association of Urological Surgeons.

PROF. ZAHIDUL HAQUE
Professor, Department of Colorectal Surgery
He obtained his MBBS in 1982, FCPS in 1989, FRCS in 2000, MS in 2001 and fellowship (colorectal surgery) in 2003. He is serving in the teaching posts in various capacities in different medical colleges and postgraduate Institute for 26 years. Prior to joining in this institute he was serving as Prof. of Surgery in BSMMU. In addition to undergraduate teaching, learning and assessment programs, he is actively involved with postgraduate teaching, learning and assessment programs of BCPS and Universities. He has 16 publications in different National & International Medical Journals. He received international scholar award on colon and rectal surgery in 2011 given jointly by International Council of Coloproctology and American Society of Colon and Rectal Surgeon.

DR. MAHAMUD RIYAD
Associate Professor, Department of Surgery
He obtained his MBBS in 2002, MRCS in 2010, and FCPS in 2011. He also obtained Fellowship and Diploma on laparoscopy surgery in 2012. He worked in teaching posts in different medical colleges and postgraduate institutes for 9 years. He has 7 publications in different national and international medical journals.

DR. IFTIKHAR IBNE MANNAN
Assistant Professor, Department of Surgery
He obtained his MBBS in 2003 and FCPS in 2012. He is serving as Assistant Professor of Surgery in Popular Medical College for last 4 years. He has 7 publications in National and International Medical Journals.

PROF. MD. SHAMSUL HAQUE
Professor & Head, Department of Ophthalmology
He obtained his MBBS in 1983 & FCPS in 1991. He has been serving in the teaching posts in various capacities in different medical colleges and postgraduate institute for about 20 years. Prior to joining in this medical college, Prof. Haque was serving as Professor & Head of Ophthalmology department in Sher-e-Bangla medical College, Barisal. In addition to undergraduate teaching, learning and assessment programs, he is actively involved with postgraduate teaching, learning and assessment programs of BCPS & Varsities. He has 27 publications in different national & international medical journals. Prof. Haque was awarded Gold Medal by the Ophthalmological Society of Bangladesh in 1993.

Departments in Overview
The Department of Anatomy caters to the need of laying a solid foundation of human Anatomy. Personal care & dedication by the teachers of the department has become the hallmark of Popular Medical College. The Department has a spacious and attractive dissection hall with all support, well equipped histology lab and a museum with essential specimens, models and charts. Hands-on-training on gross anatomy is offered during practical training in the dissection hall.
The department of Physiology is provided with a well equipped laboratory and other ancillary facilities. Hands-on-training are conducted in Physiology Laboratory during practical works to provide an opportunity to the students to make them acquainted with instruments and their use. The students are encouraged to draw their own personal observations in relation to concepts developed during theoretical sessions.
The Department of Biochemistry is provided with well equipped laboratory and other ancillary facilities. Hands-on-teaching are conducted in Biochemistry Laboratory during practical works to provide an opportunity to the students to make them acquainted with the instruments and their use. Also the students are encouraged here to draw their own personal observation in relation to concepts developed during theoretical sessions.
The Department of Community Medicine is provided with a museum and other auxiliary facilities. The museum has good collection of models, photographs and charts related to health care delivery. The teaching is also carried out at community level. For that purpose PMC has a residential field training centre at Trishal Upazilla under Mymensingh district with outpatient and diagnostic facility is in function. It provides exposure of the service to the students and interns at community setup. A dormitory has already been constructed there to accommodate 40 students for RFST programme. Along with this day visit is also conducted in different health care and public health facilities.
The Department of Forensic Medicine is provided with a museum and other ancillary facilities. The museum has good collection of specimens, models, posters and charts. Hands-on-teaching in legal medicine is imparted here in small groups. Practical classes on postmortem examination are held in Dhaka Medical College morgue.
The Department of Pathology is provided with well equipped laboratory and a museum. The museum has good collection of specimens & charts. Hands on training is conducted in the laboratory. Practical demonstration is imparted on gross pathology in the museum in small groups.
The Department of Microbiology is provided with well equipped laboratory and other auxiliary facilities to impart hands-on-training to the students. Also the students are made acquainted with the instruments and their use in the laboratory.
The Department of Pharmacology is provided with well equipped laboratory and other auxiliary facilities. The laboratory also has good collection of medicine sample for demonstration to the students. Also they are encouraged here to draw their personal observation in relation to concepts development during theoretical sessions.
The strength of the department of medicine and its allied disciplines lies in its faculties. Renowned stalwarts of the subjects ornament the department with their presence and dedicated teaching. Top quality clinical and bedside teaching is imparted by them to the undergraduate students. The teachers take utmost care in teaching medicine, pediatrics, dermatology and psychiatry to prepare the students for final MBBS.
Clinical Teaching

Small group clinical teaching  Bed side teaching in ward

Small group teaching in indoor

Small group teaching in indoor

Bed side teaching
The department of paediatrics is being established as a separate department. It caters both neonatal and paediatric age group. Extremely devoted and capable teachers take care of the undergraduate paediatric teaching.
DEPARTMENT OF SURGERY & ALLIED

The Department of surgery boasts of a very strong faculty of eminent teachers. The number and variety of patients provide ample clinical material with adequate scope for hands-on-training. In addition to general surgery there are experienced and renowned teachers of different disciplines of surgery including ophthalmology, otolaryngology, orthopedic surgery, plastic surgery, urology, colorectal surgery etc.

The department of Anaesthesiology has strong academic faculty. It teaches the students about the basics of anaesthesia in lecture classes. It also teaches the students during their placement in anaesthesia. During operations students and trainee doctors are taught the practical aspects associated with anaesthesia.
COLLEGE RULES AND REGULATIONS

General Rules
- Popular Medical College, Hospital and Hostel Campus is a non-smoking zone. Smoking is absolutely prohibited in the college, hospital and hostel campus and treated as punishable offence.
- Political activities are not permitted in the college, hospital and hostel. Organization in the name of Union, Association or Society other than those set by the college authority are forbidden. Any attempt of such activity is treated as punishable offence.
- Fixing and or hanging of posters, distribution of leaflets, pamphlets etc. within the college, hospital and hostel premises are strictly prohibited unless permitted by the authority. These are treated as gross indiscipline & the offenders are liable to punishment.
- All types of demonstration, procession, shouting in the college, hospital and hostel premises are strictly prohibited and treated as punishable offence.
- Damage of the college, hospital and hostel property is treated as punishable offence.
- Violation of college rules and regulation is treated as punishable offence.

College Fees
The admission fee for the session 2015-16 is taka 13,90,000.00 and the internship fee of taka 1,20,000.00 is payable together at the time of admission.
A monthly tuition fee of taka 8,000.00 is payable within the 7th of each current month.
The admission fee and monthly tuition fee for the session 2016-2017 will be declared in the notification for admission as per instruction of the government.
Failure to pay the monthly tuition fee shall incur a fine per day which will be charged up to the end of the next month. The name of the student will be struck off from the college register on failure to pay the tuition fee for 2 consecutive months.

Other charges (refundable and non-refundable) for facilities of the college may be payable from time to time.

Detail information regarding this will be available at the college office as and when necessary.

**Re-admission**
When the name of a student is struck off from the college register he/she will have to seek readmission on payment of full arrear dues along with the fine & re-admission fee. Re-admission fee is Tk. 25,000/- (Twenty five thousand) only. Under the following circumstances a student's name may be struck off from the college register:

- Remaining absent from classes for one month without prior permission.
- Non-payment of tuition fees for consecutive two months.
- On disciplinary ground (as decided by academic council).

**College Discipline**
Students must observe strict discipline in the college, hospital & hostel campus and also outside as instructed by the college administration.

On disciplinary grounds the following penalties may be imposed on a student, depending on the nature of offence -

- Warning.
- Fines.
- Both warning & fines.
- Signing of bond.
- Temporary suspension from the college
- Expulsion from the college

Penalty/penalties imposed on students will be recorded in his/her transcript/testimonial.

**Library rules**
Students are allowed to use the library from 8AM to 8PM on all working days of the week. The library remains close on Fridays, national holidays and holidays declared by the college office.
Student's participation in co-curricular activities

Students are encouraged to participate in co-curricular activities such as:

- Sports and games.
- Literary activities like debates, seminars, scientific fair, publications of periodic wall magazine, annual magazine etc.
- Cultural activities.
- Annual picnic
- Observation of National Days
- Humanitarian & social services like free blood donation & free medicine distribution for poor patients, warm cloths distribution during winter, relief works during natural calamities like cyclones, floods, epidemics etc.

Committees formed by the college authority consisting of teachers & students (Teachers-Students Committees) will look after these activities.

Participation to these activities help to develop themselves as a team member, decision maker, communicator, manager and community leader in addition to efficient care provider.

Students Guidance

To help and guide the students in academic matters like studies, examination, attendance & conduct, a batch of 3-5 students are placed under a teacher. Students are advised to meet their guide teacher frequently or whenever asked by the Guide Teacher. *Private tuition by faculty members is strictly prohibited.*

Academic Council Meeting

Academic Council will meet as & when necessary. They discuss all aspects of academic matters of the college & suggest measures for improving the academic environment & total improvement of teaching & learning in the college.

Student Attendance

Student attendance is recorded in attendance registers. Attendance is compulsory. Students are eligible to appear in the Dhaka University Professional Examinations only if they have 75% attendance in classes in the respective subject. Student shall have to take prior permission showing valid reason from the authority.

Curriculum and Academic Calendar

Curriculum and academic calendar is provided to every student to help him / her understand the schedule for the year.
1. Students have to carry their "Identity Cards" when in the college & hospital.

2. Students are to attend classes in clean properly dressed clothes and of course with designated white apron.

3. Indecent dress, untidy hair, slippers & T-shirts are not permitted in the college campus.

4. The students are expected to maintain the highest standard in their academic & private lives. Loss of moral & spiritual values & addiction are punishable.

5. Students must not misbehave with the staff or employees of the college, hospital & hostel. Misbehaviour is an act of indiscipline & liable for punishment.

6. Students will communicate their problems / grievances / inconveniences to their designated Guide Teacher. Statement of the grievances / problems / inconveniences by the students must be submitted in an orderly & disciplined manner.

7. Any act or indiscipline on the part of any student including usage of abusive words or objectionable words & sentences will make the student liable to be punished up to expulsion from the college.

8. Abstentions from classes in a mass without prior permission are punishable. The punishment will be imposed by the academic/disciplinary council of the college. Guardians will be informed of such acts of their wards.

9. Closing of the College, Hospital, and department gates or doors & creating obstacles in the normal functioning of the College, hospital & hostel are considered as indiscipline & students involved in such acts are liable to be punished.

10. All types of demonstrations, procession, shouting in the college, hospital and hostel premises are prohibited & students involved in them are liable to be punished.
11. At the time of admission into the college, students & parents / guardians will have to sign a bond that the student himself / herself will abide by the rules & regulations of the college & the parents/guardians will assure that their children / wards will abide by the rules & regulations of the college. Any deviation of the commitment of the bond will make him / her liable to be punished upto the maximum.

12. Every student shall provide for himself / herself all the prescribed text books, dissecting instruments & medical equipment. The college will not supply these to the students.

13. Student is advised to handle the instruments in the laboratory with utmost care. Any loss / damage to college / hospital / hostel property are liable to be realized from the student who is found responsible for the loss / damage of the college / hospital property.

14. In case of non-attendance due to illness a written statement from the student / parent / guardian with a medical certificate preferably from the teachers of concern discipline of the college should be presented to the concerned head of the department, who in turn will submit it to the Principal for approval and preserve it for future reference.

15. Receiving private coaching from any teacher of PMC is prohibited. If any student or his / her guardian seeks private coaching from any teacher of this institution & if it be proved then he / she (student) may face dismissal from studentship.
Geneva Declaration

(The Declaration of Geneva was first published on 1948 and after that is revised on 2006 and read as follows)

I solemnly pledge to consecrate my life to the service of humanity.
I will give to my teachers the respect and gratitude that is their due.
I will practice my profession with conscience and dignity.
The health of my patient will be my first consideration.
I will respect the secrets that are confided in me, even after the patient has died.
I will maintain by all the means, in my power, the honour and the noble traditions of medical profession.
My colleagues will be my sisters and brothers.
I will not permit considerations of age disease or disability, creed, ethnic origin, gender, nationality, political affiliation, race, sexual orientation, social standing or any other factor to intervene between my duty and my patient.
I will maintain the utmost respect for human life.
I will not use my medical knowledge to violate human rights and civil liberties, even under threat.
I make these promises solemnly, freely and upon my honour.
Excerpts from the
Hippocratic Oath
Hippocrates, The Greek Physician (460-377 BC)

- I swear by Apollo the healer, by Aesculapius by health and all the powers of healing and call to witness all the Gods and Goddesses that I may keep this Oath and Promise to the best of my ability and my judgment.
- I will pay the same respect to my master in the Science as to my parents and share my life with him and pay all my debts to him. I will regard his sons as my brothers and teach them the Science, if they desire to learn it, without fee or contract. I will hand on precepts, lectures and all other learning to my sons, to those of my master and those pupils duly apprenticed and sworn, and to none other.
I will use my power to help the sick to the best of my ability and judgement, I will abstain from harming or wrongdoing any man by it.

I will not give a fatal draught to any one if I am asked, nor will I suggest any such thing. Neither will I give a woman means to procure an abortion. I will be chaste and religious in my life and in my practice.

I will not cut, even for the stone, but I will leave such procedures to the practitioners of that craft. Whenever, I go into house I will go to help the sick and never with the intention of doing harm or injury. I will not abuse my position to indulge in sexual contracts with the bodies of women or of men, whether they be free men or slave. Whatever I see or hear, professionally or privately, which ought not to be divulged, I will keep secret and tell no one.

If, therefore, I observe this Oath and do not violate it, may I prosper both in my life and in my profession, earning good repute among all men for all time. If I transgress and forswear this Oath, may my lord be otherwise.
